

# 308448307

## Exercise 10

### Section1:

The github link: <https://github.com/yazbak09/Hello-World-Yazan>

File name in githib: assignment10

```
1 import mysql.connector
2
3 app = Flask(__name__)
4
5 from assignment10.assignment10 import assignment10
6 app.register_blueprint(assignment10)
7
8
9
10
11 @app.route('/')
12 def cv_fu():
13     return render_template('cv.html')
14
15
16 if __name__ == '__main__':
17     app.run(debug=True)
```

Required sections: /assignment10

this route show you

#### Insertion form

#####

#### **Update form**

Email:

#####

#### **Deletion form**

choose number of id to delete user in the list below:

User ID:

#### **List of users:**

- 7: **Michael Lawson** , michael.lawson@reqres.in  
Password: 777
- 8: **Lindsay Ferguson** , lindsay.ferguson@reqres.in  
Password: 888
- 9: **Tobias Funke** , tobias.funke@reqres.in  
Password: 999
- 10: **Byron Fields** , byron.fields@reqres.in  
Password: 101
- 11: **George Edwards** , george.edwards@reqres.in  
Password: 111
- 12: **Rachel Howell** , rachel.howell@reqres.in  
Password: 121
- 28: **yazan yazbak** , yazzaaaaa@psws.com  
Password: myworld

I make insertion form in another page, just to show you we doing registration and submit we can back to the main page when we can see the update of the list
